IMPORTANT INSTRUCTIONS READ AND SAVE THESE INSTRUCTIONS

This fan has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

This product employs overload protection (fuse). A blown fuse indicates an overload or short-circuit situation. If the fuse blows, unplug the product from the outlet. Replace the fuse as per the user servicing instructions (follow product marking for proper fuse rating) and check the product. If the replacement fuse blows, a short-circuit may be present and the product should be discarded or returned to an authorized service facility for examination and/or repair.

WARNING – To Reduce The Risk Of Fire Or Electric Shock, Do Not Use This Fan With Any Solid-State Speed Control Device.

WARNING – To Reduce The Risk Of Electric Shock, Do Not Expose to Water or Rain.

WARNING – This is a fan – not a toy! To reduce the risk of personal injury and electric shock, it should not be played with or placed where small children can reach it.

When using electric appliances, basic safety precautions should always be followed, including the following:

1. Do unplug or disconnect the appliance from the power supply before servicing.
2. Do not use gasoline, thinners, solvents, ammonias or other chemicals for cleaning.
3. Do not operate any fan with a damaged cord or plug. Discard fan or return to an authorized service facility for examination and/or repair.
4. Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Do not route cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.
5. Do not use this product outdoors.
6. Do not use this product on wet surfaces.
7. Do not use this product in a bathtub or shower.
8. Do not use near furnaces, fireplaces, stover or other high-temperature heat sources.
9. Do not immerse this product in water or allow water to drip into the motor housing.

User Servicing Instructions

Grasp plug and remove from the receptacle or other outlet device. Do not unplug by pulling on cord. Open fuse cover (A.) by sliding access cover on top of attachment plug towards blades. Remove fuse carefully (B.) by gently prying out the ends of the fuse from the receptacle.

Risk of fire. Replace fuse only with 2.5 Amp, 125 Volt fuse.

Install replacement fuse (C.) by first placing the end of the fuse into the fuse receptacle which is opposite of the blades of the plug, then carefully push in the other end. Only push against the metal end of the fuse, not the glass center portion. Close the fuse access cover (D.) by sliding the cover back into the plug until it is completely closed, latches and is flush with the face of the plug.

Risk of fire. Do not replace attachment plug. Contains a safety device (fuse , AFCI, LCDI) that should not be removed. Discard product if the attachment plug is damaged.

Parts and Features

How to Use

Your FQ-1000N fan is completely assembled and ready for immediate use. Simply plug in FQ-1000N and enjoy its cooling effect. Thanks to FQ-1000N small size and, it can be used to provide a cool breeze in almost any space.

1. **Switch Control:**
FQ-1000N allows speed control with the control knob at the front of the fan. Speed "2" is the lowest setting , "1" is the highest setting and "O" is the off position.
2. **Tilting Adjustment:**
Always switch the fan off before making a tilt adjustment. The air flow can be adjusted upward or downward simply by moving the guard up or down.
3. **The blade of the fan can be removed.**
When you want to take out the blades, take stably the center of the blades and the motor housing, pull out blade forward directly. Do not use a hammer as this could result in bearing damage. Install oppositely: Push the hub of the blade into the motor shaft.

CAUTION:

1. When opened the package, the blade is installed. To ensure the blade does not fall off, please put the blade pressed into the motor shaft.
2. In the case of no blades installed, Please don't run the product.

Cleaning and Maintenance

1. The motor is permanently lubricated and requires no oiling. Because your FQ-1000N moves air it will require regular cleaning. Be sure to unplug the unit prior to cleaning. To clean just unplug and wipe off the fan with a soft cloth.
2. Use a vacuum cleaner to clean the motor housing.
3. Before putting the fan in storage, clean thoroughly then cover with a vinyl bag and store in a dry place.
